NEWS RELEASE

Aviation Partners Boeing Appoints Patrick LaMoria Executive Vice President & Chief Commercial Officer

*World Leader in Design, Development, and Marketing of Advanced Winglet Technology
Recognizes LaMoria's Leadership and Contribution to its Success*

Seattle, WA January 16, 2013...Following 11 years of various roles, including business development and product marketing with The Boeing Company, Patrick LaMoria joined Aviation Partners Boeing (APB) in 2001 as director of sales & marketing for Europe. LaMoria quickly became an integral part of the APB team and was promoted to vice president of sales & marketing in 2004. Now, expanding his role as a key member of the APB leadership team, LaMoria will add responsibility for winglet system manufacturing, supplier management, logistics, customer support, and procurement to his ongoing responsibility for worldwide sales & marketing.

“Appointing Patrick to the position of executive vice president and chief commercial officer is a key strategic move for APB,” says Aviation Partners Boeing CEO William Ashworth. **“With over 6,000 Blended Winglet Systems sold to-date and the recent launch of our new Split Scimitar Winglet program, it is imperative that we continue our exemplary customer service performance. Patrick’s strong relationship with our customers and his unparalleled knowledge of the market makes him the absolute best choice to take on APB’s all-encompassing commercial oversight responsibilities and will help ensure APB’s continued success.”**

Nearly 5,000 Blended Winglet Systems are now in service with over 200 airlines in more than 100 countries. APB estimates that Blended Winglets have saved airlines worldwide more than 3.5 billion gallons of jet fuel to-date.

Aviation Partners Boeing is a Seattle based joint venture of Aviation Partners, Inc. and The Boeing Company.
